Employment history

Wasaf Solution

Position: Frond-end Developer

Duration: 01.04.2023 - 01.12.2024

Location: Tashkent

Mohirdev

Position: React | Nextjs Developer

Duration: 01.04.2022 - 01.04.2023

Location: Tashkent

Served as the lead frontend developer in several projects: - InMall: Developed an online shopping platform using React.js, providing convenience for users during their shopping experience. - HR Portal: Built a CRM system using Vue.js to assist HR specialists, currently serving over 2000 users. - Spectre-Energy: Created an admin panel and website for an electric vehicle charging project using React, React Query, and TypeScript, attracting over 10,000 users. Utilized cutting-edge technologies to deliver scalable and user-friendly solutions tailored to each project's requirements. Collaborated closely with cross-functional teams to gather requirements, prioritize features, and ensure successful project implementation. Demonstrated versatility by effectively working with various frameworks (React.js, Vue.js) to meet diverse project needs.
