Uzbek, Russian, English

Profile Completion: 100%

Employment history

UzFox

Position: Frontend developer

Duration: 01.04.2024 - 01.09.2024

Location: Uzbekistan Tashkent

I am currently working as a frontend developer in the Uz-fox team. We are currently working on a start-up project that uses react js. The backend part uses Graphql from Node js. In this project, my main tasks are to add new data to the backend, update them, delete them, and create custom functions that work with permissions.

Teamly

Position: Frontend developer

Duration: 01.01.2023 - 01.12.2023

Location: Uzbekistan Fergana

I worked as a practitioner in the Teamly team. During my career, I organized JavaScript more widely and organized its Vue js Framework and later made my own Feedback-app project in Vue js. This project is a mobile application where you can exchange messages with users, post, comment on posts, like and save posts you like.

Education

Iteach academy

Degree: Junior

Duration: 01.03.2022 - 01.06.2022

Faculty: Frontend developer

Portfolio

UzFox CRM

UzFox CRM
