<div><p>Course Development & Innovation</p><p>One of my key achievements was designing a comprehensive 1.5-year IT course for children aged 9-17. This program was structured into three phases:</p><ul style="list-style-type: none">• Basic Track (3 months): Introduction to programming, IT concepts, and computer fundamentals.• Extended Track (9 months): In-depth study of frontend and backend development, no-code platforms, and website creation using Tilda and NicePage. Included a 20-minute Chill Time break.• Special Track (6 months): Focused on game development with Pygame, Turtle, and Telegram bot creation.<p>This course incorporated hands-on projects, interactive learning, and team-based activities. I also utilized Canva and Notion to develop engaging learning materials that enhanced students' experience.</p></div>

As an IT instructor, I developed and delivered structured lessons on programming and technology. I taught students fundamental and advanced IT concepts, helped them work on practical projects, and guided them in developing problem-solving skills. Additionally, I contributed to course planning, student assessment, and mentoring young learners to prepare them for real-world applications of IT.
