Employment history

Megabox.uz
Position: Software developer
Duration: 01.07.2023 - 07.07.2025
Location: Uzbekistan, Tashkent

Mohirdev
Position: Nodejs backend mentor
Duration: 01.04.2023 - 01.04.2024
Location: Uzbekistan, Tashkent

Personalized Mentorship: Offered one-on-one coaching to students, tailoring advice and learning strategies to their individual needs, thereby enhancing their understanding of Node.js, Express.js, MongoDB, and front-end frameworks like Angular, React, or Vue. Curriculum Development: Collaborated in the review and enhancement of the Node.js curriculum, integrating the latest industry trends, tools, and best practices to keep the content relevant and impactful. Code Review and Feedback: Conducted detailed code reviews for student projects, providing constructive feedback that encouraged best programming practices and improved code quality. Live Sessions: Led interactive Q&A sessions and workshops, addressing common challenges and deepening students' technical knowledge through real-time support and guidance. Motivational Support: Fostered a positive and inclusive learning environment, encouraging students to adopt a growth mindset and persevere through the challenges of learning complex technical skills.

Mohirdev
Position: Software Engineer

Duration: 01.05.2023 - 07.07.2025

Location: Uzbekista, Tashkent

• Developed and maintained robust and scalable Node.js applications for Mohirdev projects. • Collaborated with cross-functional teams, including front-end developers, designers, and product managers, to deliver high-quality features and functionality. • Implemented RESTful APIs, optimized database queries, and ensured ecient data retrieval and manipulation. • Scaled architecture and systems to handle over 1 million users. • Successfully integrated payment platforms such as Payze, MohirPay, and others into various projects, significantly enhancing customer payment convenience. • Actively participated in agile development processes, including sprint planning, stand-up meetings, and retrospectives
